## Safety Precautions

This equipment has been designed and manufactured to meet international safety standards but, like any electrical equipment, care must be taken to obtain the best results and for safety to be assured. Please read the points below for your own safety. They are of a general nature, intended to help with all electronic consumer products and some points may not apply to the goods you have just purchased.

### Air Circulation

Leave more than 10cm clearance around the television to allow adequate ventilation. This will prevent overheating and possible damage to the television. Dusty places should also be avoided.

### Heat Damage

Damage may occur if the television is left in direct sunlight or near a heater. Avoid places subject to extremely high temperatures or humidity, or locations where the temperature is likely to fall below 5°C (41°F).

### Mains Supply

The set should be operated only from a 220-240 V AC 50 Hz outlet. DO ensure that the television is not standing on the mains lead. DO NOT cut off the mains plug from this equipment, this incorporates a special Radio Interference Filter, the removal of which will impair its performance. In the UK, the fuse fitted in this plug is approved by ASTA or BSI to BS1362. It should only be replaced by a correctly rated and approved type. IF IN DOUBT PLEASE CONSULT A COMPETENT ELECTRICIAN.

### Warning

To prevent the spread of fire, keep candles or other open flames away from this product at all times.

### Do

**DO** read the operating instructions before you attempt to use the equipment.

**DO** ensure that all electrical connections (including the mains plug, extension leads and interconnections between pieces of equipment) are properly made and in accordance with the manufacturers' instructions. Switch off and withdraw the mains plug before making or changing connections.

**DO** consult your dealer if you are ever in doubt about the installation, operation or safety of your equipment.

**DO** be careful with glass panels or doors on equipment.

### Do not

**DON'T** remove any fixed cover as this may expose dangerous voltages.

**DON'T** obstruct the ventilation openings of the equipment with items such as newspapers, tablecloths, curtains, etc. Overheating will cause damage and shorten the life of the equipment.

**DON'T** allow electrical equipment to be exposed to dripping or splashing or objects filled with liquids, such as vases, to be placed on the equipment.

**DON'T** place hot objects or naked flame sources, such as lighted candles or nightlights on, or close to equipment. High temperatures can melt plastic and lead to fires.

**DON'T** use makeshift stands and NEVER fix legs with wood screws. To ensure complete safety, always fit the manufacturers' approved stand, bracket or legs with the fixings provided according to the instructions.

**DON'T** leave equipment switched on when it is unattended, unless it is specifically stated that it is designed for unattended operation or has a standby mode. Switch off by withdrawing the plug, make sure your family know how to do this. Special arrangements may need to be made for people with disabilities.

**DON'T** continue to operate the equipment if you are in any doubt about it working normally, or it is damaged in any way - switch off, withdraw the mains plug and consult your dealer.

**WARNING** - excessive sound pressure from earphones or headphones can cause hearing loss.

**ABOVE ALL - NEVER** let anyone, especially children, push or hit the screen, push anything into holes, slots or any other openings in the case.

**NEVER** guess or take chances with electrical equipment of any kind - it is better to be safe than sorry.

**THE MAINS PLUG IS USED AS A DISCONNECTING DEVICE AND THEREFORE SHOULD BE READILY OPERABLE.**

**Note :** Interactive video games that involve shooting a "gun" type of joystick at the on-screen target may not work with this TV.

## Installation and Important Information

### Where to install

\* Button and stand style is dependent on model.

Locate the television away from direct sunlight and strong lights. Soft, indirect lighting is recommended for comfortable viewing. Use curtains or blinds to prevent direct sunlight falling on the screen.

Place the TV on a stable, level surface that can support the weight of the TV. In order to maintain stability and prevent it falling over, secure the TV to a wall using a sturdy tie to the clip on TV.

Install the P Clip under the stand as shown in the above illustration. The LCD display panels are manufactured using an extremely high level of precision technology; however, sometimes some parts of the screen may be missing picture elements or have luminous spots. This is not a sign of a malfunction.

Make sure the television is located in a position where it cannot be pushed or hit by objects, as pressure will break or damage the screen. Also, please be certain that small items cannot be inserted into slots or openings in the case.

**⚠** Avoid using chemicals (such as air refreshers, cleaning agents, etc.) on or near the TV pedestal. Studies indicate that plastics may weaken and crack over time from the combination effects of chemical agents and mechanical stress (such as weight of TV). Failure to follow these instructions could result in serious injury and/or permanent damage to TV and TV pedestal.

Cleaning the screen and cabinet...

Turn off the power, and clean the screen and cabinet with a soft, dry cloth. We recommend that you do not use any proprietary polishes or solvents on the screen or cabinet as this may cause damage.

### Please take note

The digital reception function of this television is only effective in the countries listed in the "Country" section during the first time installation menu. Depending on country/area, some of this television's functions may not be available. Reception of future additional or modified services can not be guaranteed with this television.

If stationary images generated by 4:3 broadcasts, text services, channel identification logos, computer displays, video games, on screen menus, etc. are left on the television screen for any length of time, they could become conspicuous. It is always advisable to reduce both the brightness and contrast settings.

Very long, continuous use of the 4:3 picture on a 16:9 screen may result in some retention of the image at the 4:3 outlines. This is not a defect of the LCD TV and is not covered under the manufacturer's warranty. Regular use of other size modes will prevent permanent retention.

### EXCLUSION CLAUSE

Toshiba shall under no circumstances be liable for loss and/or damage to the product caused by:

- fire;
- earthquake;
- accidental damage;
- intentional misuse of the product;
- use of the product in improper conditions;
- loss and/or damage caused to the product whilst in the possession of a third party;
- any damage or loss caused as a result of the owner's failure and/or neglect to follow the instructions set out in the owner's manual;
- any loss or damage caused directly as a result of misuse or malfunction of the product when used simultaneously with associated equipment;

Furthermore, under no circumstances shall Toshiba be liable for any consequential loss and/or damage including but not limited to the following, loss of profit, interruption of business, the loss of recorded data whether caused during normal operation or misuse of the product.

## Important safety information

**DO NOT OPEN COVERS AND DO NOT REPAIR YOURSELF. REFER SERVICING TO QUALIFIED PERSONNEL.**

### Headphone Warning

Loud music can damage your hearing irreversibly. Do not set the volume to a high level when listening through headphones, particularly for extended listening periods.

### Information for the DVB-T function

- Any function relative to the digital television (with the DVB logo) is available only within the country or area where such signals are transmitted. Verify with the salesperson if it is possible to receive a DVB-T signal in the zone where you live.
- Even if the television conforms to the DVB-T specifications, the compatibility to future digital DVB-T transmissions is not guaranteed.
- Some digital television functions may not be available in some countries.
- The DVB-T system present in this device is FTA (Free to air).
- DVB is a registered trademark of the DVB Project. This logo indicates that the product is compliant with European Digital Broadcasting.

### Possible Adverse Effects on LCD Screen

If a fixed (non-moving) pattern remains on the LCD screen for long periods of time, the image can become permanently retained on the LCD TV panel and cause subtle but permanent ghost images. This type of damage is NOT COVERED BY YOUR WARRANTY. Never leave your TV on for long periods of time while it is displaying the following formats or images:

- Fixed Images, such as stock tickers, video game patterns, TV station logos, and websites.
- Special Formats that do not use the entire screen. For example, viewing letterbox style (16:9) media on a normal (4:3) display (Black bars at top and bottom of screen); or viewing normal style (4:3) media on a widescreen (16:9) display (Black bars on left and right sides of screen).

## IMPORTANT INFORMATION

### TV Installation

If a television is not positioned in a sufficiently stable location, it can be potentially hazardous due to falling. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Only using furniture that can safely support the television.
- Ensuring the television is not overhanging the edge of the supporting furniture.
- Not placing the television on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television to a suitable support.
- Not standing the television on cloth or other materials placed between the television and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television or its controls.

Place the TV on a stable, level surface that can support the weight of the TV. In order to maintain stability and prevent it from falling over, secure the TV to a wall using a sturdy tie to the clip on the back of the table top stand.

This unit has been produced according to all current safety regulations. The following safety tips should safeguard users against careless use and the dangers related to such use.

- Although this unit has been carefully manufactured and rigorously checked prior to leaving the factory as with all electrical appliances, it is possible for problems to develop. If you notice smoke, an excessive build-up of heat or any other unexpected phenomena, you should disconnect the plug from the mains power socket immediately.
- Ensure that the unit is sufficiently ventilated! Never place it next to or underneath curtains!
- This set should only be connected to a 220-240V AC 50Hz mains power supply. Do not attempt to connect it to any other type of supply.
- The socket outlet must be installed near the equipment and is easily accessible.
- Do not open this unit. An attempt to repair the unit by a non-expert could be dangerous and potentially cause a fire hazard. All repairs must be carried out by qualified service personnel only.

## Important safety information (continued)

- Keep away from rodents. Rodents (and also cockatiels) enjoy biting electric flexes. They can cause a short circuit (fire hazard!) and receive a fatal electric shock.
- Always hold the plug when disconnecting the unit from the socket outlet. Do not pull on flex. The flex can become overloaded and cause a short circuit.
- Use a soft, dry cloth to clean the unit.
- Set up unit so that no one will trip over the flex.
- This unit is recommended to be installed on shock-free benches in order to avoid any danger from falling.
- Take note that toddlers can pull the unit down from a table or cupboard by means of its flex. Children can hurt themselves when doing this.
- Do not use the unit near heat sources. The casing and flex could be damaged by the intensity of the heat.
- The screen is made of glass and can break if damage is done to it. Be careful when collecting sharp edged glass splinters.
- If you intend to wall mount the unit, contact the shop where you purchased the unit for advice, and leave the installation work to professionals. Improper installation can cause damage and/or injuries.
- When installing the set on a wall, allow at least 10 cm clearance between the rear of the set and the wall. Clearance of less than 10 cm will obstruct the vents and cause overheating to the interior of the set, resulting in faults or damage to the set.
- Taking fall-prevention measures
  - If these measures are not taken, the unit can fall and cause damage and/or injuries.
  - Contact the shop where you purchased the unit to obtain full details of the measures.
  - When a TV stand is used,
  - Ensure the unit is fully on the stand and placed in the centre.
  - Do not leave the stand doors open. You could be hurt as a result of the unit falling or breaking, or your fingers being caught or jammed. Take extra precautions if you have children.
  - Avoid placing the unit on any surfaces that may be subject to vibrations or shocks.
  - To protect the unit during a thunder storm, unplug the AC power cord and disconnect the aerial.
- Caution:** Do not touch the aerial connector.
- When you leave your home for a long period of time, unplug the AC power cord for safety.
- The unit becomes warm when in operation. Do not place any covers or blankets on the unit in order to prevent overheating.
- The ventilation holes should not be blocked. Do not set up near radiators. Do not place in direct sunshine.
- When placing on a shelf, allow at least 10 cm clearance space around the whole unit.
- The unit shall not be exposed to dripping or splashing, and no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Liquids spilled into the unit can cause serious damage. Switch the set off and disconnect the mains power supply, then consult a qualified service person before attempting to use the unit again.
- Moisture condensation occurs, for example, when you pour a cold drink into a glass on a warm day and drops of water form on the outside of the glass. In the same way, moisture may condense on this unit's internal optical pick-up lens, one of the most crucial internal parts of the unit.
- Moisture condensation occurs in the following situations:
  - When you move the unit from a cold place to a warm place.
  - When you use the unit in a room where the heater was just turned on.
  - When you use the unit in an area where cold air from an air conditioner directly hits the unit.
  - When you use the unit in a humid place.
- Never use the unit when moisture condensation may occur.
- Using the unit when moisture condensation exists may damage its own internal parts and discs. Connect the power cord of the unit to the wall outlet, turn on the unit, remove the disc, and leave it for two or three hours. After two or three hours, the unit will warm up and moisture will be evaporated. Leaving the TV connected to the wall outlet will help prevent moisture condensation in the unit.
- Never place hot objects or open flame sources, such as lighted candles or night lights, on or close to the TV. High temperatures can melt plastic and lead to fires.

## Removing the pedestal stand

### When using a Wall Bracket

Please use a wall bracket appropriate for the size and weight of the LCD TV.

- Two people are required for installation.
- To install a wall-mount from another manufacturer.

- (1) Unplug and remove any cables and/or other component connectors from the rear of the TV.
- (2) Carefully lay the front of the unit face down on a flat, cushioned surface such as a quilt or blanket.
- (3) Follow the instructions provided with your wall bracket. Before proceeding, make sure the appropriate bracket(s) are attached to the wall and the back of the TV as described in the instructions provided with the wall bracket.
- (4) Always use the screws supplied or recommended by the wall mount manufacturer.

#### Note :

- The bracket shown above is a sample image. The bracket and fixings are not supplied with the TV.

### Removing the pedestal stand

(1) Carefully lay the front of the unit face down on a flat, cushioned surface with the stand hanging over the edge.

(2) Remove the screws.

(3) After the screws are removed, hold the pedestal stand in place, then remove the pedestal stand and the plastic moulding from the TV by removing away from the TV.

NOTE: Extreme care should always be used when removing the pedestal stand to avoid damage to the LCD panel.

For 22BL712G model

## The Remote Control

Simple at-a-glance reference of your remote control.

### Inserting Batteries and Effective Range of the Remote Control

Remove the back cover to reveal the battery compartment and make sure the batteries are inserted the right way round. Suitable battery types for this remote are AAA, IEC R03 1.5V.

Do not combine a used, old battery with a new one or mix battery types. Remove dead batteries immediately to prevent acid from leaking into the battery compartment. Dispose of them in a designated disposal area.

**Warning:** Batteries must not be exposed to excessive heat such as sunshine, fire or the like.

The performance of the remote control will deteriorate beyond a distance of five metres or outside an angle of 30 degrees from the IR receiver. If the operating range becomes reduced the batteries may need replacing.

## Connecting External Equipment

Before connecting any external equipment, remove the mains plug from the wall socket.

### Aerial cable:.....

Connect the aerial to the ANT. socket on the rear of the TV.

### SCART lead:.....

If you use a **decoder\*** or a **media recorder**, it is essential that the scart cable is connected to the TV.

Before running **first time installation**, any connected devices need to be set to standby mode.

The **DIGITAL AUDIO** socket enables the connection of a suitable surround sound system.

**HDMI® (High-Definition Multimedia Interface)** is for using with a DVD decoder or other equipment with digital audio and video output. It is designed for best performance with 1080i and 1080p high-definition video signals but will also accept and display VGA, 480i, 480p, 576i, 576p and 720p signals. PC format signals will also be displayed.

**NOTE:** Although this TV is able to connect to HDMI equipment, it is possible that some equipment may not operate correctly.

You can use YPbPr to VGA cable (not supplied) to enable YPbPr signal via VGA input.

**WARNING:** You cannot use VGA and YPbPr at the same time.

A wide variety of external equipment can be connected to the TV; therefore, the relevant owner's manuals for all additional equipment must be referred to for exact instructions.

If the TV automatically switches over to monitor external equipment, return to normal TV by pressing the desired programme position button. To recall external equipment, press **SOURCE** button repeatedly to switch between sources.

Regardless of source's property, audio output from the DIGITAL AUDIO socket cannot be copied.

## Connecting an HDMI® or DVI Device to the HDMI Input

The HDMI input on your TV receives digital audio and uncompressed digital video from an HDMI source device or uncompressed digital video from a DVI (Digital Visual Interface) source device.

This input is designed to accept HDCP (High-Bandwidth Digital-Content Protection) programme material in digital form from EIA/CEA-861-D-compliant [1] consumer electronic devices (such as a set-top box or DVD player with HDMI or DVI output).

**NOTE:**

- Some early HDMI equipment may not work properly with your latest HDMI TV.
- Supported Audio format: Linear PCM, sampling rate 32/44.1/48kHz.

### To Connect an HDMI Device

Connect an HDMI cable (type A connector) to the HDMI terminal. For proper operation, it is recommended that you use an HDMI cable with the HDMI Logo (HDMI®).

- If your HDMI connection is capable of 1080p and/or your TV is capable of refresh rates greater than 50Hz, you will need a Category 2 cable. Conventional HDMI/DVI cable may not work properly with this mode.
- HDMI cables transfer both video and audio. Separate analogue audio cables are not required (see illustration).
- To view the HDMI device video, press **SOURCE** button to select HDMI1.

### To Connect a DVI Device

Connect an HDMI-to-DVI adaptor cable (HDMI type A connector) to the HDMI input socket and audio cables to the SIDE AV socket, using the supplied Side AV connection cable's RED and WHITE inputs (see illustration).

- The recommended HDMI-to-DVI adaptor cable length is 6.6 ft (2m).
- An HDMI-to-DVI adaptor cable transfers video only. Separate analogue audio cables are required.

**NOTE:**

To ensure that the HDMI or DVI device is reset properly, it is recommended that you follow these procedures:

- When turning on your electronic components, turn on the TV first, and then the HDMI or DVI device.
- When turning off your electronic components, turn off the HDMI or DVI device first, and then the TV.

## Connecting a Computer

## Connecting a USB Memory

### To Connect a Computer

With either an RGB/PC or an HDMI connection, you can watch your computer's display on the TV and hear the sound from the TV's speakers.

When connecting a PC to the RGB/PC input on TV, use an analogue RGB (15-pin) computer cable and use the SIDE AV socket with a PC audio cable (not supplied) for audio connection, using the supplied Side AV connection cable's RED and WHITE inputs (see illustration).

To use a PC, set the monitor output resolution on the PC before connecting it to the TV. To display the optimum picture, use the PC setting feature.

#### NOTE:

- Some PC models cannot be connected to this TV. An adaptor is not needed for computers with a compatible mini D-sub15-pin terminal.
- Depending on the DVD's title and the specifications of the PC on which you are playing the DVD-Video, some scenes may be skipped or you may not be able to pause during multi-angle scenes.

### Connect a USB Memory

- You can connect a USB memory to your TV by using the USB input of the TV. This feature allows you to display/play music, photo or video files stored in a USB memory.
- It is possible that certain types of USB devices (e.g. MP3 Players) may not be compatible with this TV.
- You may back up your files before making any connections to the TV set in order to avoid any possible data loss. Note that manufacturer will not be responsible for any file damage or data loss.
- Do not pull out USB memory while playing a file.

**CAUTION:** Quickly plugging and unplugging USB devices, is a very hazardous operation. Especially, do not repeatedly quickly plug and unplug the drive. This may cause physical damage to the USB player and especially the USB device itself.

### USB Memory Connection

- Plug your USB memory to the USB input of the TV.

#### SIDE VIEW

USB memory

**NOTE:** The USB socket has limited functionality, and Toshiba can take no responsibility for damage to other connected equipment.

## Power Save Mode

### Environmental Information

- This television is designed to consume less energy to save environment.

You not only help to save the environment but also can save money by reducing electricity bills, thanks to the energy efficiency feature of this TV. To reduce energy consumption, you should take the following steps:

You can use Power Save Mode setting, located on **page 22**. If you set Power Save Mode as On, the TV will switch to energy-saving mode and luminance level of TV set will be decreased to optimum level. Note that some picture settings will be unavailable to be changed when the TV is in Power Save Mode.

Power Save Mode

< Off >

When the TV is not in use, please switch off or disconnect the TV from the mains plug. This will also reduce energy consumption.

- Disconnect power when going away for longer time.

Note that annually, using the TV set in Power Save Mode has more power efficiency than disconnecting the TV from the mains plug instead of keeping stand-by mode. Therefore it is highly recommended to activate Power Save Mode setting to reduce your annual power consumption. And also it is recommended to disconnect the TV from the mains plug to save energy more when you do not use.

- Please helps us to save environment by following these steps.
- This television is designed to consume less energy.
- Harmful substances and contents that are dangerous to health, are eliminated in its design.
- This product is designed to endure longer and it is subject to recycling at the end of its service life.

When the TV reaches the end of its service life, dispose the product in accordance with the proper recycling process as explained on **page 40**.

### Repair Information

Please refer all servicing to qualified personnel. Only qualified personnel must repair the TV. Please contact your local dealer, where you have purchased this TV for further information.

## Controlling the TV

A wide variety of external equipment can be connected via the sockets located on the side and back of the TV. Whilst all the necessary adjustments and controls for the TV are made using the remote control, the menu wheel on the left side of the TV may be used for some functions.

### Switching on

If the standby LED is unlit, check that the mains plug is connected to the power and press the middle of the button on the left side of the TV to switch the television on. Then the LED lights up in green. If the picture does not appear, press button on the remote control; it may take a few moments.

To put the television into Standby, press button on the remote control. To view the television, press button again. The picture may take a few seconds to appear.

**Note:** The active Standby LED may appear for a few moments when the TV is switched off.

### For energy saving:

Turning the TV off at its mains supply, or un-plugging it, will cut energy use to nearly zero for all TV's. This is recommended when the TV is not being used for a long time, e.g. when on holiday.

Reducing the brightness of the screen will reduce energy use. Energy efficiency cuts energy consumption and thus saves money by reducing electricity bills.

**NOTE:** Putting the TV into standby mode, will reduce energy consumption, but will still draw some power.

### Using the Remote Control

Press the **MENU** button on the remote control to see the menus.

The main menu appears as a group of icons each for a menu option. Press the **Left** or **Right** button to select a topic.

In sub menu screen mode the menu appears as a list. Press the **Up** or **Down** button to select a topic.

To use the options press the **Up** and **Down** buttons on the remote control to move up and down through them and **OK** button, **Left** or **Right** buttons to select the required choice. Follow the on screen instructions. The functions of each menu are described in detail throughout the manual.

### Using the Controls and Connections on the TV

Using the menu wheel on the side of the TV:

**To change volume:** Press the middle button until the volume level OSD appears. Increase the volume by pushing the button up. Decrease the volume by pushing the button down.

**To change channel:** Press the middle button until the channel information banner appears. Scroll through the stored channels by pushing the button up or down.

**To change source:** Press the middle button until the source list appears. Scroll through the available sources by pushing the button up or down.

**To turn the TV off:** Press the middle of the button down and hold it down for a few seconds, the TV will turn into standby mode.

*Please always refer to the owner's manual of the equipment to be connected for full details.*

## Initial Installation

Before switching on the TV, put your decoder and media recorder to **Standby** if they are connected and ensure the aerial is connected to your TV. To set up the TV, use the buttons on the remote control as detailed on **page 8**.

**IMPORTANT: Ensure that the aerial is connected and a Common Interface module is not inserted before switching on the TV for the first time installation.**

1. Connect the mains plug and switch the TV to on using the side control switch. If the TV does not switch on, press any numbered or **↓** button on the remote control, then the language selection menu will be displayed. This screen will appear the first time that the TV is switched on and each time the TV is reset.

2. By pressing **Up** or **Down** button, highlight the language you want to set and press **OK** button. The following message will be displayed next:

3. By pressing **Left** or **Right** button, select the **country** you want to set and press **Down** button to highlight the **Search Type** option. Use **Left** or **Right** to set the desired search type. Available search types are digital only, analog TV only and full.
4. When set, **Down** button to select Teletext Language. Use **Left** or **Right** button to select desired Teletext Language.
5. Press **OK** button on the remote control to continue and the following message will be displayed on the screen:

6. Select **Yes** button by using **Left** or **Right** button and press **OK** button to continue. Afterwards, the following OSD will be displayed on the screen:

7. If you select **Cable** option, the following screen will be displayed:

8. You can select frequency ranges from this screen. For highlighting lines you see, use **Up** or **Down** button. You can enter the frequency range manually by using the numeric buttons on the remote control. Set Start and Stop Frequency as desired by using numeric buttons on the remote control. After this operation, you can set Search Step as 8000 kHz or 1000 kHz. If you select 1000 kHz, the TV will perform search process in a detailed way. Searching duration will thus increase accordingly. When finished, press **OK** button to start automatic search.
9. If you select **Aerial** option from the Search Type screen, the television will search for broadcasts.
10. The Auto tuning screen will appear and the television will start to search for available stations. The progress bar will move along the line. You must allow the television to complete the search. The following OSD will be displayed on the screen and the television will search for the selected broadcasts:

## Initial Installation - continued

**Note:** You can press **MENU** button to cancel.

After the available stations are stored, Channel List will be displayed on the screen. If you like the sort channels, according to the LCN, please select **Yes** and then press **OK** button (if available).

- Press **OK** button to quit channel list and watch TV.

**Note:**

*Do not turn off the TV while initializing first time installation.*

## Auto Tuning

### Auto Tuning

*As new services are broadcast, it will be necessary to retune the television in order to view them.*

- Auto Tuning will completely retune the television and can be used to update the channel list. It is recommended that Auto Tuning is run periodically to ensure that all new services are added. All current channels and settings, i.e. locked channels, will be lost.

- Press **MENU** button on the remote control and select **Install and Retune** by using **Left** or **Right** button. Press **OK** button and the following menu screen will be displayed.

- Select **Automatic Channel Scan (Retune)** by using **Up** or **Down** button and press **OK** button. Automatic Channel Scan options will be displayed. You can select options by using **Up** or **Down** and **OK** buttons.

### Auto Channel Scan Menu Operation

**Digital:** Searches and stores aerial DVB stations.

**Analogue:** Searches and stores analogue stations.

**Full:** Searches and stores both analogue and aerial DVB stationsres both analogue and cable DVB stations.

- Whenever you select an automatic search type and press **OK** button, a confirmation screen will appear on the screen. To start installation process, select **Yes**, to cancel select **No** by using **Left** or **Right** and **OK** button.
- After auto channel scan type is set and selected and confirmed, installation process will start and progress bar will move along. Press **MENU** button to cancel process. In such a case, located channels are not stored. The television will start to search for all available stations. You must allow the television to complete the search.

## Manual Tuning, Analogue Fine Tuning

The television can be tuned-in manually using Manual Search feature.

### Digital Aerial Manual Search

The feature is available for service engineers or can be used for direct channel entry if the multiplex channel is known.

- Select **Manual channel scan** from the **Install and Retune** menu and press **OK**.

After selecting search type as **Digital Aerial**, you can enter the multiplex or frequency number using the numeric buttons and press **OK** button to search.

- Enter the multiplex number using the numeric buttons. The television will automatically search for that multiplex. When the multiplex is found any channels not currently on the programme list will be added and the programme information at the top of the screen will be updated.
- Repeat as necessary.

### Digital Cable Manual Search

- In cable manual scan, you can enter frequency, modulation, symbol rate and network channel scan options. After selecting search type as **Digital Cable**, you can set the desired options and press **OK** button to search.

### Analogue Manual Search

The television can be tuned-in manually. For example: if the television cannot be connected to a media recorder/decoder with a SCART lead or to tune-in a station on another System.

To allocate a programme position on the television for a decoder and media recorder: turn the decoder on, insert a pre-recorded film into the media recorder and press **PLAY**, then manually tune.

After selecting search type as **Analogue**, you can use **Up** or **Down** button to highlight an item and then press **Left** or **Right** button to set an option.

Enter the channel number or frequency using the numeric buttons. You can then press **OK** button to search. When the channel is located, any new channels that are not on the list will be stored.

### Analogue Fine Tune

- Select **Analogue Fine Tune** from the **Install and Retune** menu by using **Up** or **Down** and **OK** buttons. Analogue fine tune screen will be displayed. Analogue Fine Tune feature will not be available if there are no analogue channels, only digital channels and external sources stored.

- Use **Left** or **Right** button to set Fine Tune. When finished, press **OK** button.

# General Operation

## Stereo and Bilingual Transmissions

If stereo or dual language broadcasts are transmitted, the word Stereo or Dual will appear on the screen each time positions are changed, disappearing after a few seconds. If the broadcast is not in stereo, the word Mono will appear.

**Stereo...** Press **LANG.** to select Stereo or Mono.

**Bilingual...** Bilingual transmissions are rare. If they are transmitted, the word Dual will be displayed. Choose the required programme number, and if the word Dual appears, press **LANG.** to select Dual 1, Dual 2 or Mono.

## For DTV broadcasts

To view current language and for changing to an alternative language (if available), press **LANG.** button. Available options will be listed.

## Displaying Subtitles

In digital broadcasts, this feature will show subtitles on the screen in the selected language provided they are being broadcast.

Press **SUBTITLE** button to activate available subtitles. Press **SUBTITLE** button again to turn off subtitles.

## Viewing Main Menu

- Press **MENU** button on the remote control to view main menu.

## Controlling Volume and Muting Sound

### Volume

Press  $\triangleleft+$  or  $\triangleleft-$  button on the remote control to adjust the volume. Move the menu wheel on the TV up or down to change the volume.

### Sound Mute

Press “ $\times$ ” button once to turn the sound off and again to cancel.

## Selecting Programme Positions

To select a programme position use the numeric buttons on the remote control. To change the channels using the menu wheel on the TV, first press the middle of the menu wheel and the channel info bar appears. Now move the menu wheel up or down to scroll between the stored channels.

Programme positions can also be selected using P+ or P- button.

Press **INFO** button to display the on-screen information i.e. programme position, stereo/mono signal and picture format.

## Standby Notifications

If the TV switches off while in No Signal mode, the following on-screen message will be displayed on the next switch-on:

If the TV switches off owing to the auto power down feature, the following on-screen message will be displayed on the next switch-on:

## Channel List, Sorting Programmes, Programme Locking

You can view stored channels and sort them by using the Channel List feature.

### Viewing Channel List

The channel order may be changed to suit your personal preference.

- Select **Channel List** from the main menu and press **OK** button. The following menu will be displayed:

- Select **Edit Channel List** to manage all stored channels. Use **Up** or **Down** and **OK** buttons to select **Edit Channel List**.

- Press **Up** or **Down** button for selecting a channel. You can press **P+** or **P-** button to move page up or page down.
- To watch a specific channel, highlight it by using **Up** or **Down** button. Afterwards press **OK** button.
- Press **BLUE** button to view filtering options.
- Press **MENU** button to exit.

**Note:** The channels listed are mixed at the channel list. Channel types can be differentiated by the icons next to them: DTV (digital tv), HD (HD TV), ATV (Analogue TV), TV (TV), RD (Radio), encrypted, lock, and at the favourite list. Listed channels can also be sorted by using the active channel list filter.

### Moving a Channel

- Highlight the desired channel by using **Up** or **Down** button.
- Select **Move** option in the channel list and press **OK** button.
- Edit Number screen will be displayed. Enter the desired channel number by using the numeric buttons on the remote control. If there is a previously stored channel on that number, a warning screen will be displayed. Select **Yes** if you want to move the channel and press **OK**.

- Selected channel is now moved.

### Deleting a Channel

You can press **GREEN** button to tag/untag all channels; **YELLOW** button to tag/untag channel.

- Select the channel that you want to delete and select **Delete** option. Press **OK** button to continue.
- A warning screen will appear. Select **Yes** to delete, select **No** to cancel. Press **OK** button to continue.

### Renaming a Channel

- Select the channel that you want to rename and select **Edit Name** option. Press **OK** button to continue.
- Pressing **Left** or **Right** button moves to the previous/next character. Pressing **Up** or **Down** button changes the current character. Pressing the numeric buttons '0...9' replaces the highlighted character with the characters printed above the button one by one as the button is pressed.
- When finished, press **OK** button to save. Press **MENU** to cancel.

### Locking a Channel

You can press **GREEN** button to tag/untag all channels; **YELLOW** button to tag/untag a single channel.

- Select the channel that you want to lock by using **Up** or **Down** button.
- Select **Lock** option by using **Left** or **Right** button. Press **OK** button to continue.
- You will be asked to enter parental control PIN. Enter the PIN number.

**Note:** Default PIN is set to 0000.

- Press **OK** button when the desired channel is highlighted to lock/unlock the channel. Lock symbol will be displayed next to the selected channel.

## Viewing Info Banner, Electronic Programme Guide

### Viewing Info Banner

- Press **INFO** button. The information screen will appear giving details of the channel and programme currently being viewed.

- Whenever you change channel, the TV displays the broadcast picture along with an information banner at the bottom of the screen (available only in DTV mode). This will remain on the screen for a few seconds.
- If the selected channel is locked, you must enter the correct four numeric code to view the channel. "Enter PIN" will be displayed on the screen in such a case:

- Enter the 4-digit PIN number to continue.

*Note: Factory set default PIN code is 0000. It is not available for France country setting.*

### Electronic Programme Guide

- Select the on-screen guide by pressing **EPG** button, the guide screen will appear highlighting details of the channel and programme currently being viewed. This may take a few moments to appear.

- For information on a highlighted programme, press **INFO** button.
- For details of other programmes currently available, press **navigation buttons** to scroll up and down or scroll left/right through the list. As channels are selected, details of the programme currently being broadcast will appear.

- To set the timer for a selected programme, press **OK** button to select Timers menu.
- Press **YELLOW** button to switch to timeline view.
- Press **GREEN** button to list the schedule.
- Press **BLUE** button to display filtering options.

*Note: There are alternative views of EPG screen. Button functions will be displayed at the bottom of the menu screen.*

# Language Selection

English

## Language Settings

Using this menu you can adjust the preferred language settings.

- Press **MENU** button and select **Settings** by using **Left** or **Right** button.
- Select Language from setup menu and press **OK** to view this menu. Press the **RETURN** button on the remote control to exit.

## Preferred

These settings will be used if available. Otherwise the current settings will be used.

**Audio:** by pressing **Left** or **Right** button change the audio language.

**Subtitle:** alter the subtitle language with **Left** or **Right** button. The chosen language will be seen in subtitles.

**Teletext:** changes the preferred teletext language.

**Guide:** By pressing **Left** or **Right** button change the guide language.

## Current

**Audio:** if audio language is supported, change the audio language by pressing **Left** or **Right** button.

**Subtitle:** if subtitle is backed up, alter the subtitle language with **Left** or **Right** button. The chosen language will be seen in subtitles.

## Digital Settings - Parental Control, Menu Lock, Set PIN

You can view or set parental preferences of your TV.

### Viewing Parental Control Menu

Press **MENU** button and select the **Settings** by using **Left** or **Right** button. Press **OK** button to view Settings menu. Use **Up** or **Down** button to highlight **Parental** and press **OK** to continue:

- A dialogue box asking for the lock key will be displayed. The default key is set to **0000**. Enter the PIN.
- If it is incorrect, "**Wrong PIN**" OSD will be displayed. If it is correct, the Parental Control menu will be displayed:

### Child Lock

Press **MENU** button and select **settings** by using **Left** or **Right** button. Press **OK** to continue. Use **Up** or **Down** to select **parental** and then press **OK** to continue. Enter the pin number. Child Lock disables the menu wheel on the television. All buttons on the remote control can still be used.

### Set PIN

- Use **Up** or **Down** buttons to select **Set PIN** option. Press **OK** to display the **Set PIN** window.
- Use numeric buttons to enter new pin number. You will need to input your new pin a second time for verification purposes.
- After typing correct PIN numbers, PIN number will be changed.

**Note:** The factory default pin number is **0000**, if you change the pin number make sure you write it down and keep it safe.

### Menu Lock

In **Menu lock** you can set locking for All menus, or the **Installation menu** to restrict access to these menus. If the menu lock is disabled, there will be free access to the menu system.

- Use **Up** or **Down** buttons to go to Menu Lock option. Use **Left** or **Right** buttons to choose Menu Lock Mode.

**OFF** : All menus are unlocked.

**ALL MENUS** : All Menus are accessible only with the correct lock key. So the user cannot add, delete, rename, channels, cannot set timers.

**INSTALLATION MENU**: Installation menu is locked. So the user can't add channels.

**Note:** Factory set default PIN code is **0000**. It is not available for France country setting.

## Configuring Picture Settings

You can configure picture settings of your TV by using Picture Settings menu.

### Operating Picture Settings Menu Items

- Press **Up** or **Down** button to highlight a menu item.
- Use **Left** or **Right** button to set an item.
- Press **MENU** button to exit.

### Picture Mode

This TV offers the choice of personalising the picture style. **Cinema**, **Game**, **Dynamic** and **Natural** are preset options and affect settings within the TV. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Mode**.

- In the **Picture Settings** menu, press **Up** or **Down** button to select **Mode**. Press **Left** or **Right** button to select the picture mode you prefer.

### Contrast

Sets the lightness and darkness values of the screen. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Contrast**.

### Brightness

Sets the brightness value for the screen. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Brightness**.

### Sharpness

Sets the sharpness value for the objects displayed on the screen. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Sharpness**.

### Colour

Sets the colour value, adjusting the colours. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Colour**.

### Power Save Mode

Enables or disables the power save mode. Use **Up** or **Down** button to select Power Save Mode. Press **Left** or **Right** button to set **Power Save Mode** as On or Off. See the section, *Environmental Information* in this manual for further information on **Power Save Mode**.

*Note: The backlight function will be inactive if Power Save Mode is set to on.*

### Backlight (optional)

This setting controls the backlight level and it can be set to Auto, Maximum, Minimum and Medium.

*Note: Backlight can not be activated in VGA or Media Browser mode or while picture mode is set as Game.*

### Noise Reduction

Sometimes some words or picture elements may become distorted or pixelated. Using the Noise Reduction feature reduces this effect by smoothing out the edges. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Noise Reduction**.

### Advanced Settings

Some additional controls in the picture menu are grouped under the title **Advanced Settings**. To view or change, first press **Up** or **Down** button to select **Advanced Settings**. Press **OK** button to view. **Advanced Settings** menu controls are as the following:

## Configuring Picture Settings - continued

**Colour Temp:** Colour Temperature increases the 'warmth' or 'coolness' of the picture by increasing the red or blue tint.

**Picture Zoom:** Sets the picture size to **Auto, 16:9, Subtitle, 14:9, 14:9 Zoom, 4:3** or **Cinema**. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Picture Zoom**.

**Full Mode (optional):** If you connect a device via HDMI or YPbPr connectors and set 1080i/1080p resolutions, Full Mode item will be visible.

**HDMI True Black (optional):** While watching from HDMI source, this feature will be visible in the Picture Settings menu.

You can use this feature to enhance blackness in the picture. You can set this feature as "On" for activating HDMI True Black mode.

**Note:** *HDMI True Black On/Off feature functions only when the HDMI device output is set to RGB.*

**Film Mode (optional):** Films are recorded at a different number of frames per second to normal television programmes. Press "**▼**" or "**▲**" buttons to select Film mode. Press "**◀**" or "**▶**" buttons to set this feature Auto or Off. Turn this feature to Auto when you are watching films to see the fast motion scenes clearly.

**Colour Shift:** Adjust the desired colour tone. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Colour Shift**.

### Reset

This feature allows you to reset the current Picture Settings to the default values. Press **MENU** button and select **Picture** by using **Left** or **Right** button. Press **Up** or **Down** button to select **Reset** and press **OK** button.

**Note:** *The reset function does not reset the settings for Mode, Colour Temp, Noise Reduction, Picture Zoom and HDMI True Black.*

## Changing Picture Format

Press **SCREEN** button repeatedly to open Settings menu, press "▼" button to select Picture Zoom menu then press "◀" / "▶" buttons to select between **Auto(\*)**, **16:9**, **Subtitle**, **14:9**, **14:9 Zoom**, **4:3** or **Cinema**.

**Note:** Using the special functions to change the size of the displayed image (i.e. changing the height/width ratio) for the purposes of public display or commercial gain may infringe on copyright laws.

**Note:** You can shift to screen up or down by pressing "▲"/"▼" buttons while picture zoom is selected as **14:9 Zoom**, **Cinema** or **Subtitle**.

(\*) When **AUTO** is selected, the aspect ratio of the screen is adjusted by the information provided by the selected source (if available). The format being displayed in **AUTO** mode is completely independent of WSS information which could be included in the broadcast signal or the signal from an external device.

**Note:** Auto mode will only be available in **HDMI**, **YPbPr** and **DTV**.

### 16:9

Use this setting when watching a widescreen DVD, widescreen video tape or a 16:9 broadcast (when available). Due to the range of widescreen formats (16:9, 14:9 etc.) black bars may be visible on the top and bottom of the screen.

### Subtitle

When subtitles are included on a letterbox format broadcast, this setting will raise the picture to ensure that all the text is displayed.

### 14:9

This zooms up the wide picture (14:9 aspect ratio) to the upper and lower limits of the screen

### 14:9 Zoom

This option zooms to the 14:9 picture.

### 4:3

Use this setting to view a true 4:3 broadcast.

### Cinema

This zooms up the wide picture (16:9 aspect ratio) to the full screen.

**Note:** Picture Zoom feature is not available for Radio channel and teletext screen.

# Configuring PC Picture Settings

## PC Picture Settings (\*)

(\*) While in VGA/PC mode, some items in Picture menu will be unavailable. Instead, VGA mode settings will be added to the Picture Settings while in VGA/PC mode.

### PC Picture controls

Contrast, Brightness and Colour Temperature adjustments in this menu are identical to adjustments defined in TV picture menu.

Select **Reset** and press **OK** button to reset the adjustments.

#### Note:

For switching to VGA/PC source, press **SOURCE** button on your remote control and select VGA/PC input.

Note that VGA/PC mode menu settings are available only while the TV is in PC source.

## PC Position

Select this to display PC position menu items.

### Autoposition

If you shift the picture horizontally or vertically to an unwanted position, use this item to put the picture into correct place automatically.

- Select the **PC Position** option from the main menu. Press **OK** to display the **PC Position** submenu.
- Press the **Down** button to highlight **Autoposition** and then press the **OK** button.

### H Position

*H (Horizontal) Position shifts the image horizontally to right hand side or left hand side of the screen.*

- In the **PC Position** menu press the **Down** button until **H Position** is highlighted.
- Press the **Left** or **Right** button to adjust the value.

## V Position

*V (Vertical) Position shifts the image vertically towards the top or bottom of the screen.*

In the **PC Position** menu press the **Down** button until **V Position** is highlighted.

Press the **Left** or **Right** button to adjust the value.

### Dot Clock

*Dot Clock adjustment corrects the interference that appear as vertical banding in dot intensive presentations like spreadsheets or paragraphs or text in smaller fonts.*

- In the **PC Position** menu press the **Down** button until **Dot Clock** is highlighted.
- Press the **Left** or **Right** button to adjust the value.

### Phase

*Depending on the resolution and scan frequency that you input to the TV Set, you may see a hazy or noisy picture on the screen. In such a case you can use this item to get a clear picture by trial and error method.*

- In the **PC Position** menu press the **Down** button until **Phase** is highlighted.
- Press the **Left** or **Right** button to adjust the value.

## Configuring Sound Settings

You can configure sound settings of your TV by using Sound Settings menu.

### Configuring Sound Settings

*Sound settings can be configured according to your personal preferences.*

Press **MENU** button and select **Sound** by using **Left** or **Right** button. Press **OK** button to view Sound Settings menu.

### Operating Sound Settings Menu Items

- Press **Up** or **Down** button to highlight a menu item.
- Use **Left** or **Right** button to set an item.
- Press **MENU** button to exit.

### Volume

Press **MENU** button and select **Sound** by using **Left** or **Right** button. Press **OK** button to continue.

Select **Volume** using **Up** or **Down** button and then use **Left** or **Right** button to set volume level.

### Equalizer (Only for speaker)

*You can customize current sound mode settings. Select the appropriate mode in accordance with the installation location of the TV and adjust the equalizer on-screen as desired. Press **OK** button to view equalizer submenu.*

In equalizer menu, the preset can be changed to **Music**, **Movie**, **Speech**, **Flat**, **Classic** and **User**. Press the **MENU** button to return to the previous menu.

**Note:** *Equalizer menu settings can be changed manually only when the Equalizer Mode is in User.*

### Balance (Only for speaker)

*This setting is used for emphasizing left or right speaker balance.*

- Press **Left** or **Right** button to change the level of the balance. Balance level can be adjusted between -31 and +31.

### Headphone

*This setting is used to set the sound output when headphones are connected.*

- Press **Up** or **Down** button to select **Headphone**.
- Press **Left** or **Right** button to select Volume. Press **Right** button to increase headphone volume level. Press **Left** button to decrease headphone volume level. Headphone volume level can be adjusted between 0 and 63.

### Sound Mode

This setting is used to set the sound mode. Highlight **Sound Mode** by using **Up** or **Down** button. Press **Left** or **Right** button to set.

You can select Mono, Stereo, Dual I or Dual II mode, only if the selected channel supports that mode.

### AVL

*Sometimes there can be large changes in volume when switching from a DTV 5.1ch to a DTV 2ch, an ATv channel, or an external input. Using the AVL feature reduces these volume differences.*

- In the **Sound** menu, press **Up** or **Down** to highlight **AVL**. Press **Left** or **Right** button to set AVL as On or Off.

### Dynamic Bass

Dynamic Bass is used to increase bass effect of the TV set. Press **MENU** button and select **Sound** by using **Left** or **Right** button. Press **OK** button to continue. Select **Dynamic Bass** using **Up** or **Down** buttons and press **Left** or **Right** button to set.

### Digital Out

This setting enables you to set **Digital Out** preference as **Compressed** or **PCM**. You should set this feature in accordance with the received broadcast's content. Press **MENU** button and select **Sound** by using **Left** or **Right** button. Press **OK** button to continue.

Select **Digital Out** using **Up** or **Down** button and then use **Left** or **Right** button.

## Settings Menu Operation, Conditional Access

### Configuring Your TV's Settings

Detailed settings can be configured to suit your personal preferences.

#### Viewing Settings Menu

Press **MENU** button and select **Settings** by using **Left** or **Right** button. Press **OK** button to view Settings menu.

#### Operating Settings Menu Items

- Press **Up** or **Down** button to highlight a menu item.
- Press **OK** button to select an item.
- Press **MENU** button to exit.

#### Conditional Access

This setting controls conditional access modules when available. Select **Settings** from the main menu by using **Left** or **Right** button and press **OK** button. Afterwards, use **Up** or **Down** button to set **Conditional Access**. Press **OK** button to continue.

#### Language

Configures language settings. See page 26.

#### Parental

Configures parental settings. See page 27.

#### Timers

Sets timers for selected programmes. See page 34.

#### Date/Time Settings

You can configure date/time preferences by using this menu screen. See page 34.

#### Sources

Enables or disables selected source options. See page 35.

### Other Settings

Displays other setting options of the TV set.

#### Using a Conditional Access Module

The Common Interface Slot, situated on the side of the television, enables the insertion of a CAM (Conditional Access Module) and card. These are purchased from a service provider and allow additional subscription broadcasts to be viewed. For more information, see a service provider.

**IMPORTANT:** Insert or remove the CI module only when the TV is SWITCHED OFF.

- In order to watch certain digital channels, a conditional access module (CAM) is necessary. This module must be inserted in the CI slot of your TV.
- Obtain the Conditional Access Module (CAM) and the viewing card by subscribing to a pay channel company, then insert those to the TV using the following procedure.
- Insert the CAM and then the viewing card to the slot that is located in the terminal cover at the rear side of the TV.
- The CAM should be correctly inserted, it is impossible to insert fully if reversed. The CAM or the TV terminal may be damaged if the CAM is forcefully inserted.

Connect the TV to the mains supply, switch on and then wait for few moments until the card is activated.

- When no module is inserted, "No Common Interface module detected" message appears on the screen.
- Refer to the module instruction manual for details of the settings.

#### Viewing Conditional Access Menu (\*)

(\*) These menu settings may change depending on the service provider.

Press **MENU** button and select **Settings** by using **Left** or **Right** button. Press **OK** button to view Settings menu. Use **Up** or **Down** button to highlight **Conditional Access** and press **OK** to view menu items.

## Setting Timers, Setting Date/Time

### Timers

To view Timers menu, press **MENU** button and select **Settings** by using **Left** or **Right** button. Press **OK** button to view Settings menu. Use **Up** or **Down** button to highlight **Timers** and press **OK** to continue:

#### Setting Sleep Timer

The television can be set to turn itself Off after a certain length of time.

- Highlight **Sleep Timer** by using **Up** or **Down** button.
- Use **Left** or **Right** button to set. The timer can be programmed between **Off** and **2.00** hours (120 minutes) in steps of 30 minutes.

#### Setting Programme Timers

This feature will set the television to go to a specific channel at a certain time. It can be used to view a particular programme, or by setting the mode to daily or weekly, can be used to view a series of programmes.

Press **Down** button to set timers on an event. Programme timer function buttons will be displayed on the screen.

**Note:** That this feature will be available only when a timer has been programmed.

#### Adding a Timer

- Press **YELLOW** button on the remote control to add a timer. The following menu appears on the screen:

**Channel:** Changes channel by using **Left** or **Right**.

**Timer/Record Type:** This feature is unavailable to be set.

**Date:** Enter a date using the numeric buttons.

**Start:** Enter a starting time using the numeric buttons.

**End:** Enter an ending time using the numeric buttons.

**Duration:** Displays duration between the starting and ending time.

**Repeat:** Sets a timer to be repeated as Once, Daily or Weekly. Use **Left** or **Right** button to select an option.

**Change/Delete:** Controls parental settings on timers.

- Press **GREEN** button to save the timer. Press **RED** button to cancel.

### Editing a Timer

- Select the timer you want to edit by pressing **Up** or **Down** button.
- When finished with editing, press **GREEN** button to save. You can press **MENU** button to cancel.

### Deleting a Timer

- Select the timer you want to delete by pressing **Up** or **Down** button.
- Press **RED** button.
- Select **Yes** by using **Left** or **Right** button to delete the timer. Select **No** to cancel.

### Configuring Date/Time Settings

You can configure date/time preferences by using this menu screen.

- Select **Date/Time** in the Settings menu to configure Date/Time settings. Press **OK** button.

Use **▲** or **▼** button to highlight the Time Settings Mode. Time Settings Mode is set using **◀** or **▶** button. It can be set to AUTO or MANUAL.

When AUTO is selected, Date/Time and Time Zone options will not be available to be set. If MANUAL option is selected as the Time Zone can be altered:

- By pressing **▲** or **▼** button select Time Zone.

Use **◀** or **▶** button to change the Time Zone between GMT-12 or GMT+13. Date/Time on the top of the menu list will then change according to the selected Time Zone.

**Note:** For countries without Digital channels, only the Date and Time option will be displayed.

## Source Settings, Other Controls

### Configuring Source Settings

You can enable or disable selected source options. The TV will not switch to the disabled source options when **SOURCE** button is pressed.

- Select **Sources** in the **Settings** menu and press **OK** button.
- Press **Up** or **Down** buttons to select a source.
- Use **Left** or **Right** button to enable or disable the selected source. Changes are automatically stored.

### Input Selection

Use the Input Selection window if the television does not switch over to a connected source automatically.

- Press **SOURCE** button on your remote control for directly changing sources. Use the **Up** or **Down** button to highlight an input and press **Right** button to select.

### Configuring Other Settings - General

You can configure the settings of your TV. Select **Settings** from main menu and press **OK** to view the **Settings** menu. Press the **MENU** button on the remote control to exit.

To view general configuration preferences, select **Other Settings** in the **Settings** menu and press **OK** button.

### Operation

- Press **Up** or **Down** button to select an item.
- Use **Left** or **Right** button to set an option.
- Press **OK** button to view a sub-menu.

### Menu Timeout

To set a specific display timeout for menu screens, set a value for this option.

In the **Other Settings** menu, select **Menu Timeout** and choose **15 sec**, **30 sec** or **60 sec** using **Left** or **Right** button.

### Scan Encrypted Channels

When this setting is on, search process will locate the encrypted channels as well. If it is set as OFF manually, encrypted channels will not be located while in automatic search or manual search. Scan Encrypted Channel feature will always be ON after performing first time installation.

- In the **Other Settings** menu, use **Up** or **Down** button to select **Scan Encrypted**.
- Press **Left** or **Right** button to set this function as **Yes** or **No**.

## Other Controls - continued

### Blue Background

If the signal is weak or absent, the TV will automatically change to a blue screen. To enable this, set Blue Background to On.

- In the Other Settings menu, select **Blue Background** and choose On or Off using **Left** or **Right** button.

### Software Upgrade

This feature helps to keep your TV updated. It works automatically and searches for new information when available. Note that this setting is inactive to be modified.

To ensure that your TV always has the most updated information, you can use this setting. In order for the proper operation, please ensure that the TV is set to standby mode.

You can enable or disable automatic upgrade by setting **Automatic Scanning** option.

You can manually search for new software by selecting **Scan for upgrade**.

### Application Version

Displays the current application version.

### Hard of Hearing

If the broadcaster enables any special signal concerning the audio, you can set this setting as On to receive such signals.

- Use **Up** or **Down** button to select **Hard of Hearing** and then press **Left** or **Right** button to set this setting as On or Off.

### Audio Description

Audio description refers to an additional narration track for blind and visually impaired viewers of visual media, including television and movies. The description narrator talks through the presentation, describing what is happening on the screen during the natural pauses in the audio (and sometimes during dialogue, if deemed necessary). You can use this feature, only if the broadcaster supports that additional narration track.

- Highlight **Audio Description** by pressing **Up** or **Down** button.
- Press **OK** button to enter Audio Description submenu.
- Use **Up** or **Down** button to select Audio Description setup and then press **Left** or **Right** button to set this setting.

### Auto TV Off

You can set the timeout value of auto off feature. After the timeout value is reached and the TV is not operated for selected time, the TV will go off. Press **MENU** button and select **Settings** by using **Left** or **Right** button. Press **OK** button to continue. Use **Up** or **Down** button to select **Other Settings** and then press **OK** button. Select **Auto TV Off** using **Up** or **Down** button.

### Broadcast Type

Press **MENU** button and select **Settings** by using **Left** or **Right** button. Press **OK** button to continue. Use **Up** or **Down** button to select **Other Settings** and then press **OK** button. Select **Broadcast Type** using **Up** or **Down** button and use **Left** or **Right** button to set.

When you set the desired broadcast type by using **Left** or **Right** button, the TV will display the selected broadcast type.

### Standby Search (\*)

(\*) This setting is visible only when the Country option is set to Denmark, Sweden, Norway or Finland.

If the Standby Search is set to On and the TV is in standby mode, the TV will look for any changes in the saved channels. Press **MENU** button and select **Settings** by using **Left** or **Right** button. Press **OK** button to continue. Use **Up** or **Down** button to select **Other Settings** and then press **OK** button. Select **Standby Search** using **Up** or **Down** button and use **Left** or **Right** button to set.

### Teletext language

Use this setting to set a preferred Teletext language. Press **MENU** button and select **Settings** by using **Left** or **Right** button. Press **OK** button to continue. Use **Up** or **Down** button to select **Language** and then press **OK** button. Select **Teletext** language using **Up** or **Down** button and use **Left** or **Right** button to set.

## USB Media Browser

This TV allows you to enjoy photo, music or video files stored on a USB memory

### Manual Start

- To display Media Browser window, you can press **MENU** button on the remote control and then select **Media Browser** by pressing **Left** or **Right** button.
- You can also select Media Browser from the Quick button menu.
- Press **OK** button to continue. Media Browser menu contents (depending on the contents of your USB memory) will be displayed.

### Auto Start

- When you plug a USB memory, the following menu will be displayed.

You can play music, picture and video files from a USB memory.

- To display All files in a list, select Settings tab and change View Style to Folder. Then go back to main media browser screen and you will see that now All tab will be available. Select All tab and press **OK** button.

#### Note:

*Some USB compliant devices may not be supported.  
If the USB memory is not recognized after power off/on or First Time Installation, plug the USB memory out and power off/on the TV set. Then plug the USB memory in again.*

- Do not use a USB Hub.
- You must obtain any required permission from copyright owners to use copyright content.

*Toshiba cannot and does not grant such permission.*

- Depending on the file size and amount in your USB memory, it may take some time for loading to view. A message will display on-screen when loading files from the USB memory.

- Only limited types of USB device are supported. Therefore, it is suggested not to use USB for playing Media Player.
- Non-supported characters will be replaced with a square (□).

## USB Media Browser - continued

This TV allows you to enjoy photo, music or video files stored on a USB memory

### Playing MP3 Files

To play mp3 files from a USB memory, you can use this menu screen.

- Use **Up** or **Down** button to highlight a file.
- Use **Numeric Buttons** to jump to the previous or next file to play.
- Use **RED** button to stop playback.
- Press **GREEN** button to play all media files in the folder starting with the selected one.
- Press **YELLOW** button to pause a playing file.
- Use **BLUE** button to play the selected file repeatedly or in shuffle mode.
- Press **INFO** button to display filtering options.
- Press **FAV** button to sort files by Title, Artist or Album.
- Press **OK** to play the selected file.
- Use **Left** or **Right** button to jump previous or next file.

### Viewing JPEG Files

To view photo files from a USB Memory, you can use this menu screen. When you select Photos from the main options, available image files will be filtered and listed on this screen.

If you select a subtitle file and press **OK** button, you can select or deselect that subtitle file. The following menu will be displayed while playing a video file:

- Use **Numeric Buttons** to jump to the previous or next file to play.
- Press **OK** button to view the selected picture in full screen.
- Press **GREEN** button to start a slideshow.
- Use **BLUE** button to activate loop/shuffle mode.
- Press **INFO** button to filter files.
- Press **FAV** button to sort files by date.
- Press **≡** button to view thumbnails.

## USB Media Browser - continued

This TV allows you to enjoy photo, music or video files stored on a USB memory

### Slideshow Feature

You can use this feature to display photos on your TV.

- Press **RED** button to zoom.
- Press **GREEN** button to continue with the slideshow.
- Press **YELLOW** button to pause a playing file.
- Press **BLUE** button to activate loop/shuffle mode.
- Press **Left** or **Right** button to jump to previous or next file of slideshow.
- Use **Up** or **Down** button to rotate the picture.
- Press **INFO** button to activate the operations bar.
- Press **BACK** to exit.

### Video Playback

When you select **Videos** from Media Browser, available video files will be filtered and listed on this screen. You can use **Up** or **Down** button to select a video file and press **OK** button to play a video.

**Note:** If you set **View Style** from **Media Browser Settings** menu as '**Folder**', media browser main selection screen will include **ALL** tab as well.

If you select a subtitle file and press **OK** button, you can select or deselect that subtitle file.

- Use **Up** or **Down** button to highlight a file.

Press **OK** button to start the video playback and play the selected file. Press **GREEN** button to play all.

The following menu will be displayed while playing a video file:

- Press **BLUE** button to stop the video playback.
- Press **OK** button to pause the video playback.
- Press **LEFT** button to go backward.
- Press **RIGHT** button to go forward.
- Use **LANG** button to set subtitle/Audio.
- Use **GREEN** button to jump to a time.

Use **YELLOW** button to Open subtitle time correction menu

#### Note:

You can set subtitles by using **OK** button before starting the playback or by using **LANG** button during the playback. Selected subtitles may not be displayed correctly in some cases.

In order to display movie subtitles correctly, you should set a "Movie Subtitle" language. See the section, "Movie Subtitle" in "Language Settings" for selecting Movie Subtitle language.

Press **BACK** button to switch back to previous menu.

## **USB Media Browser - continued**

This TV allows you to enjoy photo, music or video files stored on a USB memory

You can set your Media Browser preferences by using the **Settings** dialogue. Press **Up** or **Down** button to highlight an item and use **Left** or **Right** button to set.

**View Style:** Sets default browsing mode.

**Slideshow Interval:** Sets slide show interval time.

**Show Subtitle:** Sets subtitle enabling preference

**Subtitle Language:** Sets supported subtitle language

**Subtitle Position:** Sets subtitle position as up or down.

**Subtitle Font Size:** Sets subtitle font size (max. 54pt)

## To Close the Media Player

### To Close the Media Player

- Press **MENU** button on the remote control.

## Analogue Text Services

This television has a multi-page text memory, which takes a few moments to load.

### Analogue Text Services

*Before using the text services, the required language region must be chosen.*

- Select **Language** from the **Settings** menu.
- Press the **Left** or **Right** button to choose the required language region.
- After the Teletext language is selected, press **MENU** button to exit.

### Using Text Button -TEXT

- To view text services press **TEXT**. Press **TEXT** again to superimpose text over a normal broadcast picture.
- Press **TEXT** again to return to normal viewing.
- Programmes cannot be changed until text is cancelled.
- The first text page shown will be the initial page.
- Any text page can be accessed by entering the 3 digit page number using the numbered buttons, pressing the coloured buttons or pressing to advance to the next page and to go back to the previous page.
- Four coloured titles will appear at the base of the screen. To access one of the four given subjects, press the relevant coloured button on the remote control.
- For further information on your particular text system(s), see the broadcast text index page or, consult your local Toshiba dealer.

Below is a guide to the functions of the remote control text buttons.

### Acessing Sub-Pages

If a text page has sub-pages, press and enter the sub-page numbers 01,02,03 etc. which can be selected using Left/ Right buttons at the bottom of the text page under the coloured links.

### Revealing Concealed Text

To discover the solutions on quiz and joke pages press the **INFO** button.

### Holding a Page

At times it is convenient to hold a page of text. Press **OK** and **HOLD** will appear in the top left of the screen. The page will be held on screen until the button is pressed again.

### To display an initial page

Press **RETURN** to access an initial page. The one displayed is dependant on the broadcaster.

## Appendix A: PC Input Typical Display Modes

The following table is an illustration of some of the typical video display modes. Some, due to the display native resolution, are scaled automatically to enable correct image to be displayed.

Your TV may not support different resolutions. Supported resolution modes are listed below.

If you switch your PC to an unsupported mode, a warning OSD will appear on the screen.

Index	Resolution	Frequency
1	640x350	85 Hz
2	640x400	70 Hz
3	640x480	60Hz-66Hz-72Hz -75Hz-85Hz
4	800x600	56Hz-60Hz-70Hz-72Hz -75Hz-85Hz
5	832x624	75 Hz
6	1024x768	60Hz-66Hz-70Hz-72Hz -75Hz
7	1152x864	60Hz-70Hz-75Hz -85 Hz
8	1280x768	60 HzA
9	1280x768	60 HzB
10	1280x768	75Hz-85Hz
11	1280x960	60Hz-75Hz-85Hz
12	1280x1024	60Hz-75Hz-85Hz
13	1360x768	60 Hz
14	1400x1050	60 HzA
15	1400x1050	60 HzB
16	1400x1050	75Hz-85Hz
17	1400x900	65Hz-75Hz
18	1600x1200	60 Hz
19	1680x1050	60 Hz
20	1920x1080	60 HzA
21	1920x1080	60 HzB
22	1920x1200	60HzA
23	1920x1200	60Hz

## Appendix B: AV and HDMI Signal Compatibility (Input Signal Types)

Source	Supported Signals	
EXT (SCART)	PAL 50/60	
	NTSC 60	
	RGB 50	
	RGB 60	
Side AV	PAL 50/60	
	NTSC 60	
YPbPr	480i	60Hz
	480p	60Hz
	576i	50Hz
	576p	50Hz
	720p	50Hz
	720p	60Hz
	1080i	50Hz
	1080i	60Hz
	1080p	50Hz
	1080p	60Hz
HDMI	480i	60Hz
	480p	60Hz
	576i	50Hz
	576p	50Hz
	720p	50Hz
	720p	60Hz
	1080i	50Hz
	1080i	60Hz
	1080p	24Hz
	1080p	25Hz
	1080p	30Hz
	1080p	50Hz
	1080p	60Hz

**Note:** In some cases a signal on the LCD TV may not be displayed properly. The problem may be an inconsistency with standards from the source equipment (DVD, Set-top box, etc.). If you do experience such a problem please contact your dealer and also the manufacturer of the source equipment.

## Appendix C: Supported File Formats for USB Mode

Media	File Extension	Format		Remarks (Maximum resolution/Bit rate etc.)	
		Video	Audio		
Movie	.mpg, .mpeg	MPEG1, 2	MPEG Layer 1/2/3	max 1920x1080 @ 30p 20Mbit/sec

## License Information

- HDMI, the HDMI logo, and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.
- DVB is a registered trademark of the DVB Project.
- [1] EIA/CEA-861-D compliance covers the transmission of uncompressed digital video with high-bandwidth digital content protection, which is being standardized for reception of high-definition video signals. Because this is an evolving technology, it is possible that some devices may not operate properly with the television.

### MP3 licence letter

MPEG Layer-3 audio coding technology licensed from Fraunhofer LLS and Thomson.

### AVC licence letter

THIS PRODUCT IS LICENSED UNDER THE AVC PATENT PORTFOLIO LICENSE FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER TO (I) ENCODE VIDEO IN COMPLIANCE WITH THE AVC STANDARD ("AVC VIDEO") AND/OR (II) DECODE AVC VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NON-COMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED TO PROVIDE AVC VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION MAY BE OBTAINED FROM MPEG LA, L.L.C. SEE <HTTP://WWW.MPEGLA.COM>

Manufactured under license from Dolby Laboratories. Dolby and the double-D symbol are trademarks of Dolby Laboratories.

Cleaning the screen and cabinet...  
Turn off the power, clean the screen and cabinet with a soft, dry cloth. We recommend that you do not use any proprietary polishes or solvents on the screen or cabinet as this may cause damage.

Disposal...

The following information is only for EU-member states:

Disposal of products

The crossed out wheeled dust bin symbol indicates that products must be collected and disposed of separately from household waste. Integrated batteries and accumulators can be disposed of with the product. They will be separated at the recycling centres.

The black bar indicates that the product was placed on the market after August 13, 2005.

By participating in separate collection of products and batteries, you will help to assure the proper disposal of products and batteries and thus help to prevent potential negative consequences for the environment and human health.

For more detailed information about the collection and recycling programmes available in your country, please contact your local city office or the shop where you purchased the product.

Disposal of batteries and/or accumulators

The crossed out wheeled dust bin symbol indicates that batteries and/or accumulators must be collected and disposed of separately from household waste.

If the battery or accumulator contains more than the specified values of lead (Pb), mercury (Hg), and/or cadmium (Cd) defined in the Battery Directive (2006/66/EC), then the chemical symbols for lead (Pb), mercury (Hg) and/or cadmium (Cd) will appear below the crossed out wheeled dust bin symbol.

By participating in separate collection of batteries, you will help to assure the proper disposal of products and batteries and thus help to prevent potential negative consequences for the environment and human health. For more detailed information about the collection and recycling programmes available in your country, please contact your local city office or the shop where you purchased the product.

In conformity with the EEE Regulation.

## Questions and Answers

**Q** Why is there no sound or picture?

**A** Check the TV is not in standby mode.  
Check the mains plug and all mains connections.

**Q** Why is there a picture but no sound?

**A** Check the volume has not been turned down or that sound mute has not been selected.

**Q** What can cause a poor picture?

**A** Interference or a weak signal. Try a different TV station.

**Q** Why doesn't the video/DVD being played show on screen?

**A** Make sure the VCR or DVD player is connected to the TV as illustrated in the beginning chapters, then select the correct input by pressing SOURCE .

**Q** Why is the VCR/DVD picture in black and white?

**A** Check the correct input has been chosen.

**Q** Why is there a good video picture but no sound?

**A** Check the SCART lead connection.

**Q** Why doesn't the remote control work?

**A** Check the batteries aren't exhausted or inserted incorrectly.

**Q** Why don't the controls of the TV work?

**A** Check that CHILD LOCK is not selected.

**Q** Why is the sound only coming from one speaker when stereo sound is selected?

**A** Check that the balance in the SOUND menu hasn't been set to one side.

**Q** Why are there problems with analogue text service?

**A** Good performance of the analogue text depends on a good strong broadcast signal. This normally requires a roof or loft aerial. If the text is unreadable or garbled, check the aerial. Go to the main index page of the analogue text service and look for the User Guide.

**Q** What is DVB-T?

**A** Digital Video Broadcast via an aerial/antenna.

**Q** How are radio channels selected?

**A** You can select them via the Channel List.

**Q** What can be done if the PIN number has been forgotten?

**A** You can reset TV and perform first time installation. Ensure that no-one else can use this by removing the Owner's Manual.

**Q** Why are there horizontal stripes and/or blurred images on the screen when in PC mode?

**A** The Phase may need adjustment. Select PC Settings and highlight Phase and adjust until the picture is clear.

## Questions and Answers

**Q** Why doesn't the Media Browser feature operate?

**A** Make sure that USB memory is connected correctly. Incorrect behaviour may occur with a USB Hub connection.

**Q** Why is the digital channel locked?

**A** Parental control is activated. Check parental settings.

**Q** Why are some encrypted digital channels unavailable?

**A** Your subscription needs upgrading. Contact your service provider.

**Q** Why when digital subtitles have been selected are they not showing on screen?

**A** Subtitles are not currently being transmitted by the broadcaster.

**Q** Why is the soundtrack in English when a different audio language has been selected?

**A** The programme is currently being broadcast with an English soundtrack only.

**Q** Why does the active standby LED sometimes take longer to go out?

**A** When put into standby, the TV's active standby will automatically search all available channels for downloads, provided Automatic Download is enabled. The time taken to do this may vary.

### EU Conformity Statement

"This product is marked with "CE" and complies therefore with the applicable harmonized European standards listed under the Low Voltage Directive 2006/95/EC and the EMC Directive 2004/108/EC."

Responsible for CE-marking is TOSHIBA EUROPE GMBH  
Hammfelddamm 8, D-41460 Neuss, Germany

This equipment corresponds to requirements of the Technical Regulation on limitation of usage of certain dangerous substances in electrical and electronic equipment.
